PRODUCT HIGHLIGHTS

- Very good yield potential across a wide range of environments
- Strong agronomics with excellent standability and stress tolerance
- Good disease package with solid Goss's Wilt protection
- Handles tough conditions and high yield environments
- Well-suited for high-production acres across the Midwest

TRAIT OPTIONS

ALWAYS FOLLOW GRAIN MARKETING
AND STEWARDSHIP PRACTICES.

AGRONOMIC RATINGS

1 = Poor | 9 = Excellent

DISEASE TOLERANCE

1 = Poor | 9 = Excellent

PLANT & EAR CHARACTERISTICS

IDEAL PLACEMENT

- ✓ High-yield environments
- ✓ All soil types

Best performance in
IL, IN, OH, IA, MI & KY

MANAGEMENT TIPS

- ✓ Plant in well-drained soils when soil temperatures reach 50°F
- ✓ Maintain moderate to high plant populations
- ✓ Manage for maximum yield potential
